# "EVERYONE COMMUNICATES, FEW CONNECT"

## Mastermind Group

Do your communication skills affect how others view you?  
Would connecting to others change your relationships with clients,  
team members, supervisors, and prospective customers?

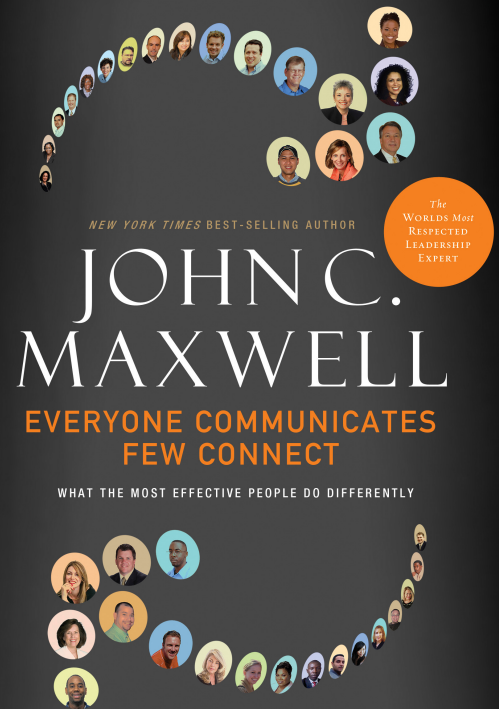

Effective people communicate differently. You can learn how, too!

### What is Mastermind?

Mastermind Groups are led by Tom Cooper. Designed in a workshop setting, the focus is on intentional collaborative group accountability. Each participant is encouraged to interact as part of the team and will leave the sessions with plans of action. Tom believes that people matter. If we invest in ourselves and develop each other as better leaders, then we will all be more successful.
